Alex Rivera

555-0142 | alex.rivera@example.com | github.com/alex-rivera-example | Portland, OR

Summary

Frontend engineer with 6 years of experience building data-heavy React and TypeScript applications. Led the rebuild of a real-time shipment tracking dashboard used by 400+ dispatchers. I care about performance, testing, and interfaces that work for everyone.

Technical Skills

Testing: axe-core, Playwright, React Testing Library, Vitest

Frontend: React, Storybook, Next.js, Tailwind CSS, D3, visx

Languages: HTML, CSS, TypeScript, JavaScript

Tools: Git, GitHub Actions, Figma (handoff only)

Notable Projects

Dispatch Dashboard (Larkspur Logistics) 2022 – Present
Real-Time Shipment Tracking *React, TypeScript, WebSockets*

- Led the rebuild of a real-time shipment tracking dashboard used by 400+ dispatchers
- Cut time-to-interactive from 6s to 1.8s with virtualization and memoization
- Built fleet throughput charts with D3 and visx

Component Library (Copperline Media) 2021 – 2022
Shared React UI Kit *React, Storybook*

- Built a shared React component library with Storybook, used across the editorial tools and the public site

Experience

Senior Frontend Engineer 2022 – Present
Larkspur Logistics *Portland, OR*

- Ran keyboard-navigation and ARIA fixes across the dashboard; added axe checks to CI
- Introduced Playwright end-to-end tests and component tests in CI (GitHub Actions); flaky-test rate dropped below 1%
- Mentored two junior engineers through code review and pairing

Frontend Developer 2020 – 2022
Copperline Media *Portland, OR*

- Ran a weekly front-end guild for six engineers covering testing and accessibility
- Built a Next.js publishing front end serving 2M monthly readers

Junior Web Developer 2019 – 2020
Fennel & Finch Agency *Portland, OR*

- Built responsive marketing sites with HTML, CSS, and JavaScript

Education

Willamette Valley State University Salem, OR
B.S. Computer Science *2015 – 2019*
