Alex Rivera

555-0142 | alex.rivera@example.com | github.com/alex-rivera-example | Portland, OR

Summary

Frontend engineer with 6 years of experience building data-heavy React and TypeScript applications. Led the rebuild of a real-time shipment tracking dashboard used by 400+ dispatchers. I care about performance, testing, and interfaces that work for everyone.

Technical Skills

Languages: TypeScript, JavaScript, HTML, CSS, some SQL

Frontend: React, Next.js, D3, visx, Tailwind CSS, Storybook

Real-time: WebSockets, server-sent events

Testing: Playwright, Vitest, React Testing Library, axe-core

Tools: Git, GitHub Actions, Vercel, Figma (handoff only)

Notable Projects

Dispatch Dashboard (Larkspur Logistics) 2022 – Present
Real-Time Shipment Tracking *React, TypeScript, WebSockets*

- Led the rebuild of a real-time shipment tracking dashboard used by 400+ dispatchers
- Cut time-to-interactive from 6s to 1.8s with virtualization and memoization
- Built fleet throughput charts with D3 and visx

Component Library (Copperline Media) 2021 – 2022
Shared React UI Kit *React, Storybook*

- Built a shared React component library with Storybook, used across the editorial tools and the public site

Experience

Senior Frontend Engineer 2022 – Present
Larkspur Logistics *Portland, OR*

- Introduced Playwright end-to-end tests and component tests in CI (GitHub Actions); flaky-test rate dropped below 1%
- Mentored two junior engineers through code review and pairing
- Ran keyboard-navigation and ARIA fixes across the dashboard; added axe checks to CI

Frontend Developer 2020 – 2022
Copperline Media *Portland, OR*

- Built a Next.js publishing front end serving 2M monthly readers
- Wrote Node.js API routes and simple PostgreSQL queries for the editorial tools

Junior Web Developer 2019 – 2020
Fennel & Finch Agency *Portland, OR*

- Built responsive marketing sites with HTML, CSS, and JavaScript

Education

Willamette Valley State University Salem, OR
B.S. Computer Science *2015 – 2019*
